Home Economics—Extension Service
U.S. Department of Agriculture
Revised September 1972

USE THIS LEAFLET TO HELP YOU PLAN YOUR CLEANING.

- Some cleaning jobs need to be done *every day*.
- Some need to be done once *every week*.
- Others need to be done *only now and then*.

Does cleaning wear you out? You may be doing it the hard way!

- Don't try to do too many jobs in one day.
- Look for tools and ways to work that make the job easier.
- Bend, reach, and stoop less.
- Long-handled tools may help.
- Work with both hands.
- Take fewer steps.
- Try some new ideas.

Which is better for you—Clean a whole room at a time? Or do the same job in every room before you change tools?

Look at the next pages. They may help you decide when you should do your cleaning.

KITCHEN

Daily	Weekly	Now and then
